

Ladies and Gentlement of Congress;

Please leave well enough alone! If it's not broke don't try too fix it! This XM Radio and all it's Functions has been the best thing of my long driveing carear. I use the Weather Channel for planning my many travels to larger cities. I use the Traffic Reports for staying clear of Bad Situations, that only would tie up Traffic worse if not for XM Traffic Reports. So you see this is not something You need to Deal with. It's in Good Hands now with the people that are provideing a Great Service to a lot of Concerned Citizens that think Your Going too Screw it up. Try XM Radio maybe You'll Appreciate the Fine Selection of Good Music Plus a Valueble Service, that's part of Our American Right too Protect Ourselves from To many Bad Laws!

Thank You In Advance

Thomas M. Hagness
